

Farah Naz

3D Artist & Modeler | 3D Animator

Farahnaz.me

About

Creative 3D Artist with 10+ years of experience in 3D modeling, animation, product visualization, exhibition & booth design, and motion graphics. Skilled in transforming concepts into high-quality visual experiences for marketing, advertising, and interactive media while collaborating with cross-functional teams to deliver production-ready assets.

🎓 From Pakistan, I earned a Master Degree in 3D Animation

Education & Certifications

2014 – 2018

PAF KIET College of
Media & Arts

Master in 3D Animation

2005 – 2008

Arena Multimedia

Diploma in Multimedia

2008

Arena Multimedia

Certified 3D Modeler

Experience

Sep 2019 – Present

Dotsnpix

3D Modeler & Animator

- Create 3D environments, product visuals, spatial concepts, and animated content.
- Take projects from initial references and concepts through modeling, materials, lighting, and final renders.
- Produce product animations and presentation-ready visuals for digital experiences and campaigns.
- Work directly with clients to understand ideas, explore visual directions, and deliver polished 3D solutions.

Jul 2024 – Feb 2026

BrotherGas - Dubai UAE (Remote)

3D Modeler & Animation

- Developed realistic 3D product models and promotional animations for the brand.
- Created materials, lighting setups, and high-quality renders for different products.
- Produced visual assets for marketing campaigns across digital and print channels.
- Adapted and refined 3D assets for different formats, compositions, and campaign.

Jul 2014 – Aug 2018

Prodyzr

3D Modeler

- Modeled props, environments, and detailed 3D assets for a variety of projects.
- Built textures and materials to achieve the required visual style and level of realism.
- Prepared and optimized models for animation, rendering, and real-time applications.
- Collaborated with designers and animators to turn concepts and references into production-ready assets.

Jun 2011 – Aug 2014

Arena Multimedia

3D Instructor

- Taught 3D modeling, animation, lighting, rendering, and motion graphics.
- Guided students through complete projects from basic concepts to finished portfolio.
- Created practical assignments focused on building strong technical and visual skills.
- Mentored students on workflows, presentation, and preparing their work for professional opportunities.
